WELCOME

This plan is not just about money.

It is about the people and the moments the money is for.

Every family has dreams — children's education, a comfortable retirement, a home, security and the freedom to make choices without financial stress. This plan brings those dreams together and turns them into a practical financial roadmap.

Read it in one sitting. Question everything. The numbers inside are yours — from the answers you gave, on your phone, without ever leaving it.

WHERE WE STAND

Your Financial Starting Point

Six honest numbers describe today — before any judgment.

MONTHLY INCOME

₹1,50,000

MONTHLY EXPENSES

₹80,000

EMIS

₹0

no active EMIs

MONTHLY SURPLUS

₹70,000

available to invest

SAVINGS RATE

47%

of income kept

CURRENT INVESTMENTS

₹0

declared liquid savings

Your current cash flow gives the family a starting point for goal funding. The next question is whether the existing surplus is sufficiently protected and directed toward future goals.

HOW TO READ THIS PAGE

Large numbers = today's reality. Everything after this page builds on them — nothing is assumed.

Plan Today for Better Tomorrow

FINANCIAL HEALTH

Your Financial Health at a Glance

One score, six dimensions — computed on-device from your own data.

THE HONEST VERDICT

The foundation exists, but Insurance and Emergency need attention before the goals can be funded confidently. Both are fixable — and the pages ahead show the exact sequence.

CASH FLOW

Where Does Your Money Go?

Follow one month of the family's income, step by step.

FLEX**₹0**

breathing room

The plan routes your surplus into these four jobs every month. Amounts shown are the plan's monthly SIP allocations — protect first, fund what must happen, grow what can wait, and keep some flexibility untouched.

STRENGTHS

What Is Already Working

Plans build faster on real strengths — these are yours.

**Positive monthly surplus**

₹70,000 stays home every month — the raw material every goal on the next pages is built from.

**Long runaway ahead**

26 years to retirement means time, not sacrifice, can do most of the heavy lifting.

**Goals with names and dates**

9 goals are defined — named goals get funded; vague wishes rarely do.

**Zero EMI pressure**

No loans eating the surplus — every investable rupee stays deployable.

NEEDS ATTENTION

Where We Need to Strengthen the Plan

Gaps are normal. Unnoticed gaps are the problem — these are seen.

Emergency fund

The reserve covers 0.0 of the 6 months it should. Target: ₹4,80,000 in liquid, boring, instantly-reachable form.

Life cover

The cover shown in this plan is ₹4,68,00,000; today's is ₹0. A plain term plan closes most of this for less than a dinner out per month.

Health cover

A single hospital week can erase a year of SIPs. Cover today: ₹0; shown in plan: ₹10,00,000.

None of this is a criticism. Every family's first plan looks like this page — the difference between families is simply who acts on it first.

THE JOURNEY AHEAD

Your Financial Journey Ahead

Every milestone the family is walking toward, in order.

Each milestone has its own page in this report. In the app, tap any milestone to change its year or amount — this entire report rebuilds itself around the new plan.

7 milestones mapped **40 yrs horizon**

plus today's starting point · to the furthest dream

THE COST OF DREAMS

Today's Dream. Tomorrow's Price.

Inflation is quiet, patient and undefeated — so the plan prices it in.

THE RISING PATH OF "AARAV'S HIGHER EDUCATION (ENGINEERING)"

A goal priced at today's rates is an illusion. At 6.0% annual inflation, prices roughly double every 12 years — so every goal in this report is costed at its future year, not today's.

THE RIGHT MINDSET

A gap is not a failure. It is simply the distance between today's position and tomorrow's requirement.

Planning turns a large future number into smaller decisions that can be acted on now. The priority ladder on the next pages shows the order.

PRIORITIES

What Should Happen First?

The ladder is built from your data — not a template.

01

PROTECT

Close the ₹4,68,00,000 life-cover gap with a plain term plan.

02

FUND

Start the SIP stack — ₹99,906/month across 9 goals.

03

STABILISE

Build the 6-month cushion (₹4,80,000 to go).

04

BUILD

Add a 10% yearly SIP step-up tied to increments.

05

OPTIMISE

Review tax sections 80C/80D with your CA once a year.

06

REVIEW

Mark one date every year. The review page at the end shows the six numbers to watch.

ROADMAP

From Plan to Action

Four quarters. A plan that fits in a single year, every year.

MONTHS 1-3**SECURE**

- Apply for ~₹4,68,00,000 term cover (medicals while healthy).
- Open the emergency sweep; park tranche one of ₹4,80,000.
- Turn on salary-day auto-debit for the SIP stack.

MONTHS 4-6**STABILISE**

- Top the health floater to ₹10,00,000.
- Audit the three biggest expense lines; cap lifestyle creep.
- Move idle savings beyond one month's expenses.

MONTHS 7-9**ACCELERATE**

- Confirm every goal SIP is running — ₹99,906/month total.
- Set the 10% annual SIP step-up date to the increment month.
- Store policy PDFs + nominee notes in the document vault.

MONTHS 10-12**REVIEW**

- First full-year review: score delta, execution rate, covers.
- Re-run this plan on any life event — job, move, child, loan.

ANNUAL REVIEW

Six Numbers to Watch

Once a year — or whenever life changes — check these and nothing else first.

1 • Emergency Fund ₹0 target ₹4.8 L	2 • Life Cover ₹0 plan shows ₹4.68 Cr	3 • Goal SIP ₹99,906/mo running every month
4 • Savings Rate 47% keep above 20%	5 • Equity Allocation 65% reference 65%	6 • Retirement Corpus ₹2.73 Cr the freedom number

Review every year — or whenever life changes.

Marriage • a child • a move • a new loan • an inheritance — each earns a fresh plan.

CONVERSATION

Five Questions to Discuss

Bring these to your next review — answers shape the plan more than any product.

01 What do you want your money to make possible?

02 Which goal would hurt most if we were short?

03 How much market volatility can you genuinely live with?

04 What protection does the family already have?

05 What should we change this month — not someday?

THE NEXT STEP

THE NEXT STEP

Protect first.

Save with purpose.

Invest patiently.

Review regularly.

आपको सब कुछ कल नहीं करना है।
आपको बस आज सही कदम उठाना है।
